

## Are you a PI or planning to be a PI in the next 12 months?

### Book your place on the PI Essentials Workshop

#### The workshop will support you to:

- Understand the key responsibilities of a PI
- Recognise what makes an effective PI and the importance of effective leadership in delivering studies at site
- Understand and reflect on the skills and behaviours required to be an effective PI
- Know how to access support

#### Learner Feedback

“I feel much more confident in my abilities as a PI. PIs with experience need such refreshers - especially in DGHs where service trumps everything.”

“I would highly recommend this course. By undertaking this course, it gives you the encouragement to become a PI or closely work with a PI to ensure the trial is run effectively and safely. This course has consolidated my knowledge and understanding!”

“Should be targeted and advertised to new consultants joining Trusts. I wish I had known about this course when I was a new consultant or when I was first asked to be as PI. .”

## Book Now

This 3-hour virtual learning opportunity is aimed at those who are just about to be a PI or are currently a PI and is beneficial as a refresher.
